Ethan Brosselard

Backend Developer · Python, APIs and Data

Fully remote · Permanent preferred or fixed-term > 6 months

French-speaking team · Occasional in-person attendance possible for onboarding, meetings or team events.

Location: Paris, France **Email:** ethan.brosselard@gmail.com **GitHub:** github.com/ZayKox
LinkedIn: www.linkedin.com/in/ethan-brosselard **Portfolio:** ethanbrosselard.com

Profile

Backend developer with a master's in AI engineering (2026) and apprenticeship experience since 2022. Developed business backends in Python, SQL workflows and RAG integrations, alongside C++ experience and personal TypeScript projects. Open to different backend languages.

Work experience

Python Software Developer — Apprenticeship October 2023 — September 2026
Studio Beyowi Paris 13th arrondissement, France

- **Healthcare** — Developed most of the internal Thésorimed backend and its business rules.
- **Real estate** — Developed the Primotheus backend alongside the CTO, serving property owners among other users.
- **Data** — ETL, SQL migrations and synchronization (AWS DMS); 3 projects involving several GB of data.
- **Applied AI** — RAG and vector search with pgvector, Qdrant and OpenAI services.
- **Delivery** — AWS, DigitalOcean, Docker, CI/CD; sprints and development, staging and production environments.

C++ Backend Developer — Apprenticeship September 2022 — August 2023
Intento Design Paris 1st arrondissement, France

- **ID-Xplore** — Implemented a Monte Carlo method in C++ on the input parameters of an analog circuit exploration tool.
- **Maintenance** — Code optimization, unit tests and documentation; independent work and implementations alongside the CTO.

Projects

Personal projects

Palimia Bring movies, series and games into one library: catalog separated from private data, explainable recommendations. Next.js, TypeScript, PostgreSQL; independently developed.

Ludosaic Quick mini-games without installation: replayable rules, server verification and recovery after interruption. Next.js, TypeScript, Colyseus; MVP in development.

Homelab Personal and shared services, future hosting for my projects: Docker Compose, Ansible and local Python validation. Hardware planned for late 2026; no deployed services.

Skills

Backend & APIs Python, Flask, REST APIs; C++ at Intento Design

Data & SQL SQL, ETL, AWS DMS; PostgreSQL and Prisma in Palimia

Applied AI & RAG RAG, vector search, pgvector, Qdrant, OpenAI API at Beyowi

Cloud & delivery AWS, DigitalOcean, Docker, CI/CD, Git, GitHub

Personal projects TypeScript, Next.js, Colyseus; Docker Compose, Ansible and Python for the homelab

Education

Master's Degree in Computer Science — Artificial Intelligence Engineering — completed in 2026
University Paris 8 Vincennes — Saint-Denis
2024 — 2026

Bachelor of Technology (BUT) in Computer Science
Paris Rives de Seine IUT — Université Paris Cité
2021 — 2024
